Subject: WinSystems Packaging Change

Dear Customer,

Like many of you, WinSystems' values the environment. We are therefore introducing a new, reusable, "clamshell" package for some of our products.. This new packaging is RoHS compliant, provides improved physical and ESD protection during shipping, and will decrease packaging waste. The clamshells can be accumulated and returned to WinSystems for reuse or recycled locally.

Customers will begin to see the new packaging in the coming weeks as we implement this change. Those wishing to return the clamshells to WinSystems to be reused or recycled can ship them to the following address:

WinSystems, Inc.
Attn: Recycling
715 Stadium Drive
Arlington, TX 76011

Please feel free to contact the Application Engineer responsible for your account if you have any questions regarding this change.

Sincerely,

George T. Hilliard
Sales Manager
